PVC Panel, Hoarding & Screen System Product Sheet

Product use:

HoardFast is a PVC panel hoarding system, complete with aluminum & PVC tracks & joiners. It is designed as an easy to install temporary or permanent modular wall solution. Some of the main features of this system include:

- Rapid install & relocation times
- Pre-finished panels and tracking, with complete door sets
- Durable and weatherproof PVC
- Hygienic & easy to clean, gloss finish
- Extremely cost effective
- Can be installed single-handedly
- Use for both walls and ceilings
- Available in 'floor to ceiling' and 'free standing' systems

Description:

HoardFast panels are made from PVC with a hollow core construction. HoardFast has a good level of natural flame retardance because PVC is an inherently fire resistant plastic.
